To do so, add the Find controls, which you can use to create custom searches with more complex criteria.. Although the Search box on your MacBook Finder toolbar is all you usually need to find most files and folders, sometimes you need a little more flexibility and power to locate what you need on your system.

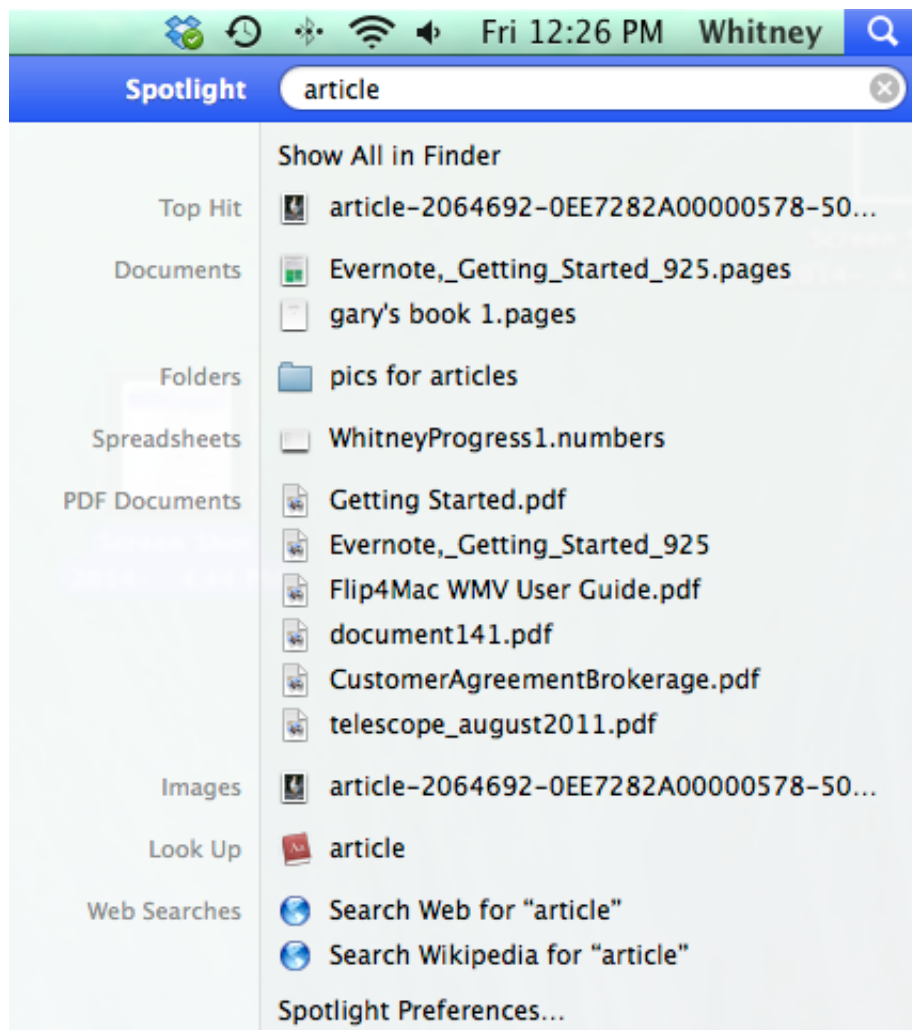

1. [search for keywords in word documents](#)

To locate a file by using the Find controls, follow these steps:

search for keywords in word documents

search for keywords in word documents, how do i find keywords in a document [Download File From Ssh To Mac](#)
